FLAG 11:

A screenshot of a Kali Linux virtual machine running in Oracle VM VirtualBox. The terminal window shows a user at the prompt 'kali@kali: ~/task5/Main_Directory/\$'. The user enters 'ls' and sees two files: 'reverse_me.txt' and 'reverse_me.txt.bak'. Then they enter 'cat reverse_me.txt' and see the output 'tac tac'. Next, they enter 'man tac' and see the first few lines of the 'tac' manual page. Finally, they enter 'tac reverse_me.txt' and see the output 'tac tac'. The terminal has a dark background with a faint blue dragon logo. The top of the screen shows the VirtualBox menu bar and status bar. The bottom of the screen shows the Windows taskbar with various icons and system information like date and time.

THANK YOU FOR GOING THROUGH MY FILE
